

This session is based on the first 50 spins of live table actuals from Dublinbet Table 1 on 1st January 2013. I used Alarian's GUTracker for the session and have screen dumped the each crossing and result to try to show how I play it.

The for me is the first potential crossing, rules state only 2 bets with 17 numbers.

Another 17 unit loss for last bet, but another betting opportunity here which is against strict rules of 2 bets for 17 numbers but I probably would have kept going here, depending on your stop loss you could keep going or take the loss and end the session, playing the way I played I would have kept going for 4 spins total if the crossing was still available. It is more about recovery than winning now.
